The Stewardship Decision Worksheet

Work through a consequential choice with a clearer view of the facts, the people affected, and your responsibility as an owner.

Decision and deadline

Name what you need to decide and by when. Separate what you know from what you assume. What would change your mind?

Facts, assumptions, and people affected

List the people who will carry the consequences. What have you already promised them? Who has a perspective you have yet to hear?

Responsibility and conviction

Read Psalm 24:1 and James 1:5. What belongs to God here? Where do you need wisdom? Where might fear or pride be setting the terms?

Options and trade-offs

Write two honest courses of action, including their costs. Ask what each would require of you and of the people with less power in the situation.

Decision, communication, and follow-up

Write the decision, who you will tell, and when you will review the result. Ask a trusted peer to check back on what you actually did.
